

Mental Health interprofessional (IPE) event

Aims

- To explore the contribution of different disciplines in the mental health interdisciplinary working.
- To apply the social and medical models to holistic interagency care planning for service users.

Learning Outcomes

Knowledge

- Analyse the importance of the promotion of mental health and the prevention of psychiatric disorders.
- Appreciate the effects of stigma on service users and their families.

Skills

- Reflect upon your own and society's attitudes towards service users with mental health difficulties.
- Generate a comprehensive interagency care plan for a service user and evaluate the role of the various statutory and non-statutory agencies in the delivery of this care plan.
- Analyse the care given to service users with mental health difficulties and critically appraise the current working practices.
- Demonstrate effective communication between agencies and individuals throughout.
- Reflect upon how you work in interagency groups.

Attitudes or values

- Value the importance of involving service users and their carer's in the generation of care plans and in identifying unmet physical, psychological and social needs.
